La Vendée, land of sporting excellence!

Alain LEBOEUF

President of La Vendée

department

Used to major sports competitions, supported by thousands of volunteers from all over the area, the department council is the first partner of the sport in la Vendée: partner of all collective sports playing at the highest national levels (Football, Basketball, Handball...); partner of more than 500 local sports clubs through financial or material fundings to organize their events; main partner of the department's College Sports sections.

In nearly 30 years, the Departmental council supported more than 710 sports facilities (indoor and outdoor facilities). Since its opening in 2012, the Vendespace facility, directly managed by the Departmental Council, has welcomed more than one million visitors, and some of the main sports competitions such as the EuroBasket Women, Davis Cup, Badminton European Championship, Euro Asia Table Tennis Championship, Top 12 French Gymnastics.

La Vendée knows how to create and host the greatest events with Worldwide resonance, like the Vendée Globe, non-stop solo sailing without assistance (the hardest race in the World) or the Tour de France, which has started 6 times from la Vendée since its creation.

La Vendée, land of sporting excellence, will be glad to welcome you for your preparation to the 2024 Olympic Games La Vendée, terre d'excellence sportive, sera heureuse de vous accueillir dans vos préparations aux Jeux Olympiques 2024!

Challans Gois

Alexandre HUVET
President of
Challans Gois Community

Historically recognized as the cradle of horse breeding (La Vendée half-blood horses) and as land of equestrian events, Challans Gois logically proposes its territory to the delegations for their Olympic and Paralympic Paris 2024 preparation, its Haras des Presnes, well-known for the equestrian top-level training.

Located in Saint Gervais, 10 kms away from the city of Challans and 15 kms from the sea, the Haras des Presnes offers outstanding assets such as high level facilities and a wonderful environment. The 40 hectares of the equestrian center makes it a real support base for the top level riders and Olympic delegations, who are often coming to the Haras, thus enjoying the green meadowlands of the marshes and the beaches of Saint-Jean-de-Monts, accessible to horses and particularly adapted to training and preparation to equestrian eventing.

You will be assisted throughout your stay by Rodolphe SCHERER, top level rider having participated many times in Olympic games, and being an Olympic trainer, You will benefit by the technical equipment and Rodolphe's experience in the Olympic preparation.

The name of Challans city has always been linked to sports. In the 70/80s our basketball club was at the top level and today each home game of the National 1 team gathers 2000 people.

The city supports 70 sports clubs and 6 500 players and members through equipment constructions, fundings and logistic help in great events.

As often as we can, we love to welcome great sport events, such as the Grand Départ of Tour de France in 2005.

Sports means not only feats, but also develops team spirit, striving satisfaction, and above all the notions of respect and solidarity, all of these being how we want to raise our children.

Applying for being your preparation center for Paris 2024 Olympics and Paralympics is a superb occasion for our sports clubs and members to experience nearly from the inside the Olympic event.

CHANTONNAY

Chantonnay

Isabelle MOINET

Mayor of Chantonnay

President of the Community

Pays de Chantonnay

Chantonnay and its territory wish to commit fully in the Olympic and Paralympic adventure of 2024.

Road cycling occupies an obvious place in Chantonnay. Many races take place here each year, such as le Circuit des Plages Vendéennes, le Tour de Vendée... Stopover town of Tour de France in 1997, host of the French road cycling Championship in 2006, 2010 and 2015, Pays de Chantonnay won a strong reputation in the cycling world.

Chantonnay was able to host these great evens thanks to hilly landscapes, but also thanks to the enthusiasm of its inhabitants for road cycling. The local cycling club dynamism, the quantity of expert volunteers, enabled the success of these events.

Our lakes and rivers are an unquestionable asset for tourism. Our vacation village can welcome the nature, fishing, hiking, and cycling lovers. This village counts nearly 40 independent lodges located way below the lake of Touchegray, a water sport center offering in summer many leisure activities.

The large number of volunteers and the high quality facilities have distinguished the city of Chantonnay, awarded « Sporting city ». Politics are emphasizing the sports capacity to create social links and integration. Over time, four sports complexes, six football fields, a dojo, a French bowls pitch, a rugby field have been constructed... And soon a big aquatic center, on 2 hectares, 3 swimming pools, 6 water lines, a wellness center and health dedicated center (sauna, hammam, massage showers and a salt cave)... an investment of more than 10 millions euros.

Le Pays de Chantonnay is ready to welcome you.
